2018 is here, which means while we return to everyday life, we also look forward to planning holidays in which we can escape routine life and simply relax and restore our bodies.

And when it comes to truly experiencing relaxation, there is no place like Abaton Island Resort & Spa, located on the coast of Crete.

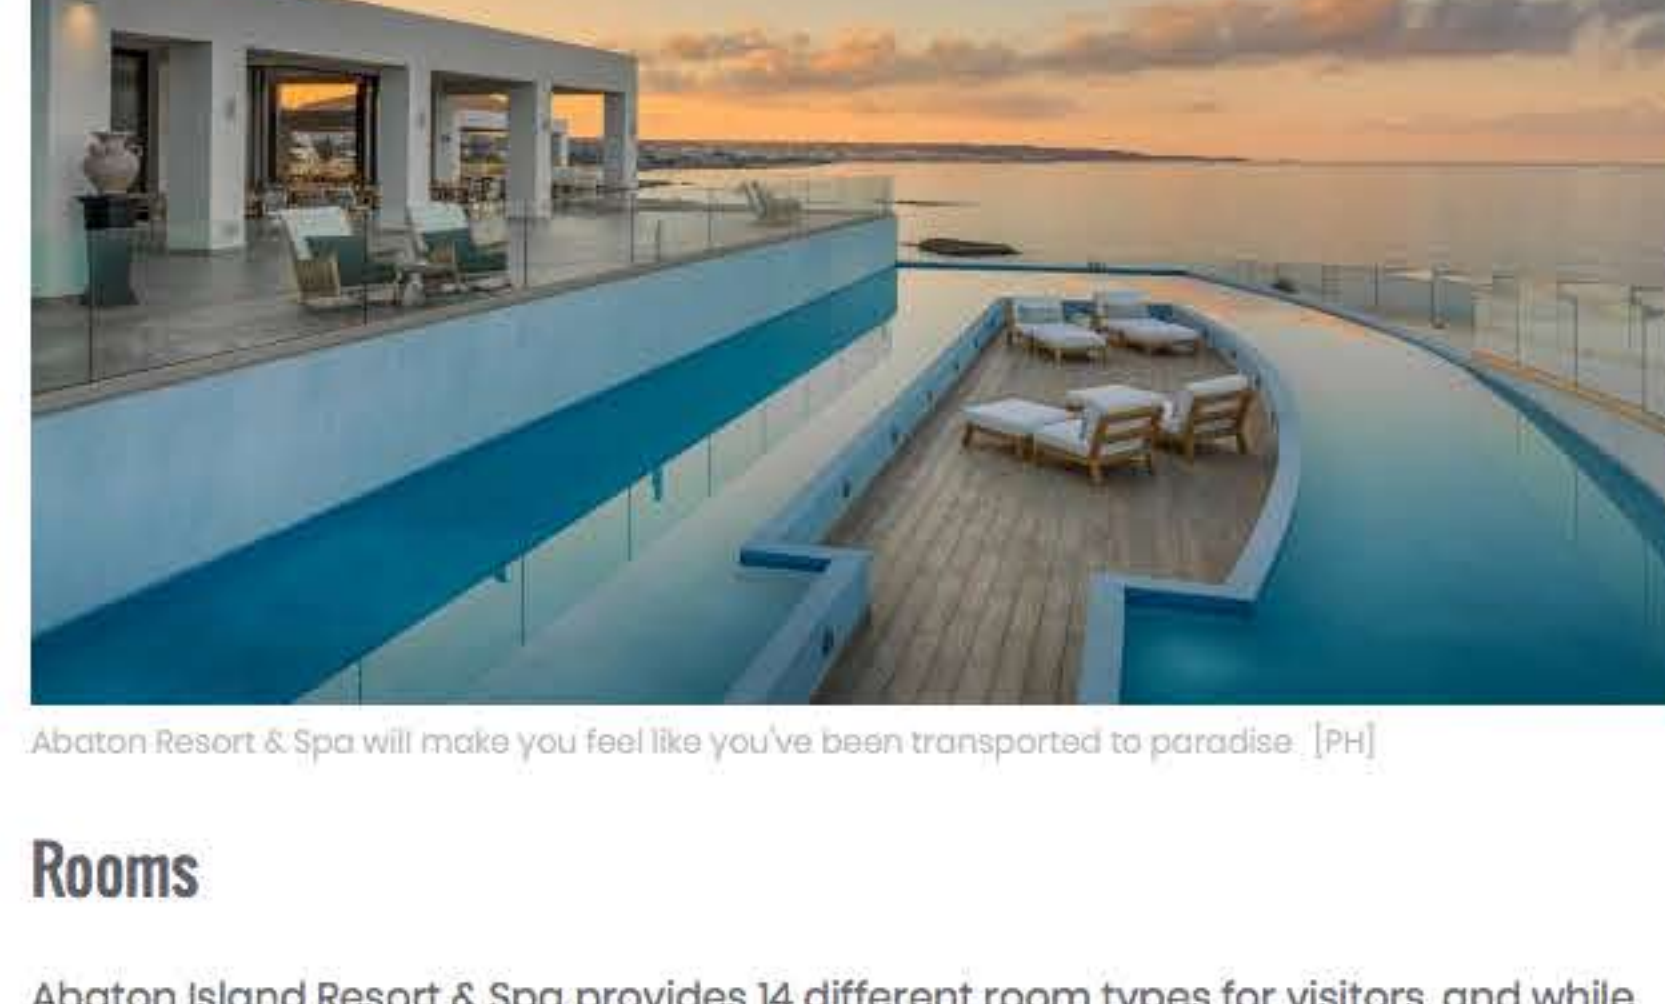

On entering the resort, you will instantly feel transported to a world of luxury, where everything from the reception to the views, to the pools and the rooms will make you feel at peace – not to mention the kind and helpful staff.

Located on the coast of the beautiful island of Crete, the views of the beach and the sea will welcome you in the mornings, and the sounds of the waves crashing will send you to sleep at night.

Here's everything you need to know about the resort.

Rooms

Abaton Island Resort & Spa provides 14 different room types for visitors, and while they range in size, all rooms are designed with just as much beauty as the others.

The natural shades used in the rooms, the handpicked furniture and the simple and elegant designs will make you feel like you have been transported into pure indulgence.

Many rooms come with either private or sharing pools which means you can cool down from the sun by walking only five steps out your front door.

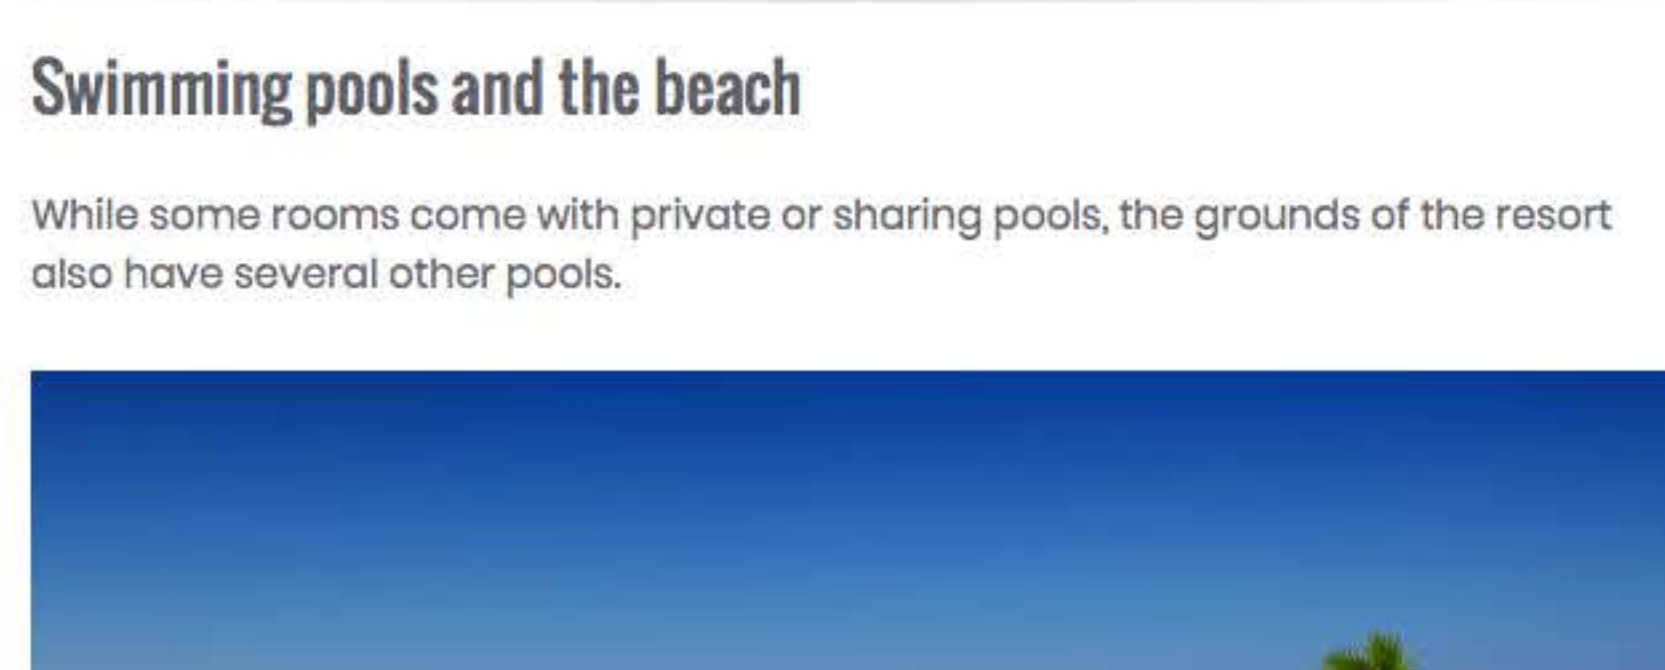

Each room is designed with beauty. [PH]

Other rooms come with jacuzzis instead of a private pool, for those who want to experience true relaxation as they look out at the stunning views.

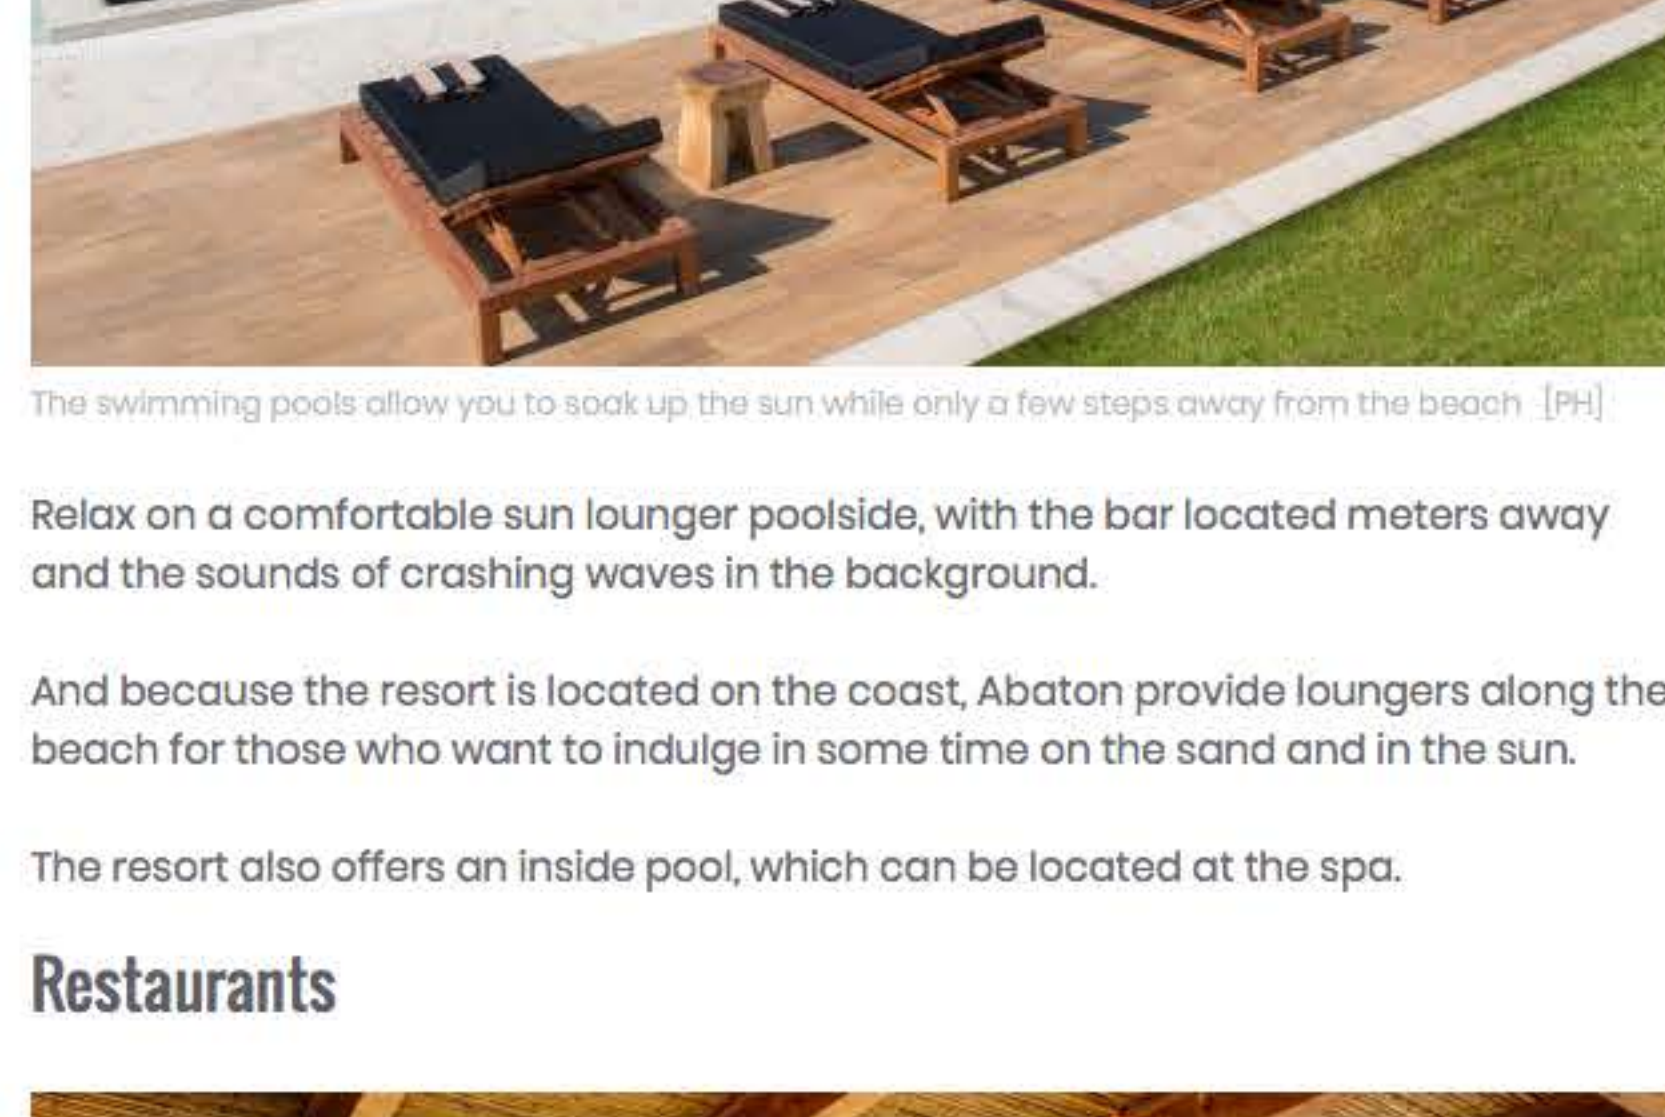

There are also two villas available for larger groups or families, The Royal Villa and The Dream Villa.

The resort also offers an inside pool, which can be located at the spa.
